GitHub Portfolio: <https://github.com/MasD91>

I am a dynamic, innovative and methodical Junior Software Developer with 6 months experience whilst completing a coding course with code institute. Highly skilled in JAVA Script, HTML, CSS and currently learning Python looking for a junior front-end developer opportunity.

Throughout my previous work experience as a General manager, I have obtained valuable and transferable skills such as excellent verbal and written communication and meticulous organisational skills. I am highly detail-oriented, can multitask and prioritise multiple demands in a fast-paced environment.
